Kensington and Chelsea has been consistently rated as one of the best performing councils in the country and enjoys a vibrancy with which few other boroughs can compete.

In this key strategic role you will use the spatial planning system to its full partnership potential, devising and implementing strategies for some of London's top town centre destinations – Knightsbridge, Kensington High Street, Kings Road, Notting Hill Gate and Portobello Market.

You may have a background in retail, property, economic development, planning, town centre management or a related field, but your passion will be the role that town centres can play at the heart of our communities. This is not an opportunity you can afford to miss.
