

Chief Executive Oxford City Centre Management

Salary up to £50k

Oxford is one of the most famous cities in the world. Its central area is crammed with history but it is also a thriving 21st century business, economic and retail centre which doesn't stand still. A major new shopping development is planned for completion in the next five years which will reinforce the city's place as a regional centre.

OX1 – the Oxford City Centre Management Company – is looking for a top quality person to be our next Chief Executive. Supported by business, local authorities, the university and other stakeholders, the company is well-established and it has now decided to go for a Business Improvement District vote within the next two years.

The successful candidate will have to combine strong leadership with great strategic thinking and a practical 'can do' attitude as he/she liaises with a unique range of stakeholders and city centre users. We are looking for someone with a proven track record in this field, preferably with a successful BID campaign behind them.

If this is you, please write to us giving full details of your career to date:
