SUPPORTING TOWN TEAMS

NABMA is delighted to be working with ATCM to provide support to Town Teams on market matters.

Markets are playing a leading role in High Street regeneration and Nabma's Love Your Local Market campaign, started in response to the Mary Portas Report, has achieved remarkable success in introducing new traders to markets and emphasising the community role played by many markets. NABMA is the leading markets management organisation in the country and provides a range of services that can help you assess and deliver your markets project.

Under NABMA's agreement with ATCM we can provide a free initial consultancy service including a visit and report. If your markets project requires more detailed work NABMA also has a professional consultancy service which can help you. Please make use of the services Nabma can offer. We have already helped a number of Town Teams.
